

PILOT MENTORSHIP PROGRAM

ABOUT

In early 2016, CORE Group launched its Young Professionals Network (YPN) to formally engage and support future innovators of global community health. YPN fosters engagement, collaboration, knowledge sharing, and career development among our young CORE Group members.

Since then, YPN members have participated in networking events, lunchtime table discussions at CORE Group's Global Health Practitioner Conferences, and skills building activities. To foster the continued growth of YPN, CORE Group would like to announce its Pilot Mentorship Program for 2018.

This year-long Mentorship Program aims to further support the career development of our young professionals in global community health and international development by drawing on the extensive and far-reaching knowledge and experience of CORE Group members. By doing so, we hope to deepen the collaboration, engagement and learning among our diverse community.

The Pilot is set to officially start in January 2018 and run through December 2018.
