Implementation of complimentary services

- Food Security, WASH, and Nutrition
- 8,110 Households reached (54,460 beneficiaries)
- 75 local health workers trained

Healthy Behavioral Changes

- Decrease in food insecure households
- Increase in household handwashing facilities
- Decrease in unsanitary disposal of baby diapers

Key takeaway

The combination of food security, nutrition, and WASH activities can positively impact healthy behaviors and practices, even in an extreme emergency context such as in Yemen
