

DISABILITY-INCLUSIVE SEXUAL & REPRODUCTIVE HEALTH SERVICES

DEMOGRAPHICS

15% of any community

200 million people suffer from severe impairments

95 million children under 15 years old have a disability

20 million people in the world who need a wheelchair don't have one. Many more have inappropriate or worn-out machines.

Less than 0.1% of deaf-blind people throughout the developing world receive adequate support²

UN CONVENTION ON THE RIGHTS OF PERSONS WITH DISABILITIES

Fastest ratifying and most practical UN convention in history:

- 03/2018: **176 ratifications**, **11 signatories**, **11 no action**
- EU first ratification of a human rights convention

ARTICLE 25

Persons with disabilities have the right to the enjoyment of the highest attainable standard of health without discrimination, this includes **quality** of care, **specificity** of the services, **immediacy** of the offer, **consent** and **financial** coverage.

ARTICLE 6

Women and girls with disabilities are subject to multiple discrimination, and in this regard shall take measures to ensure the full and equal enjoyment by them of all human rights and fundamental freedoms.

SUSTAINABLE DEVELOPMENT GOALS

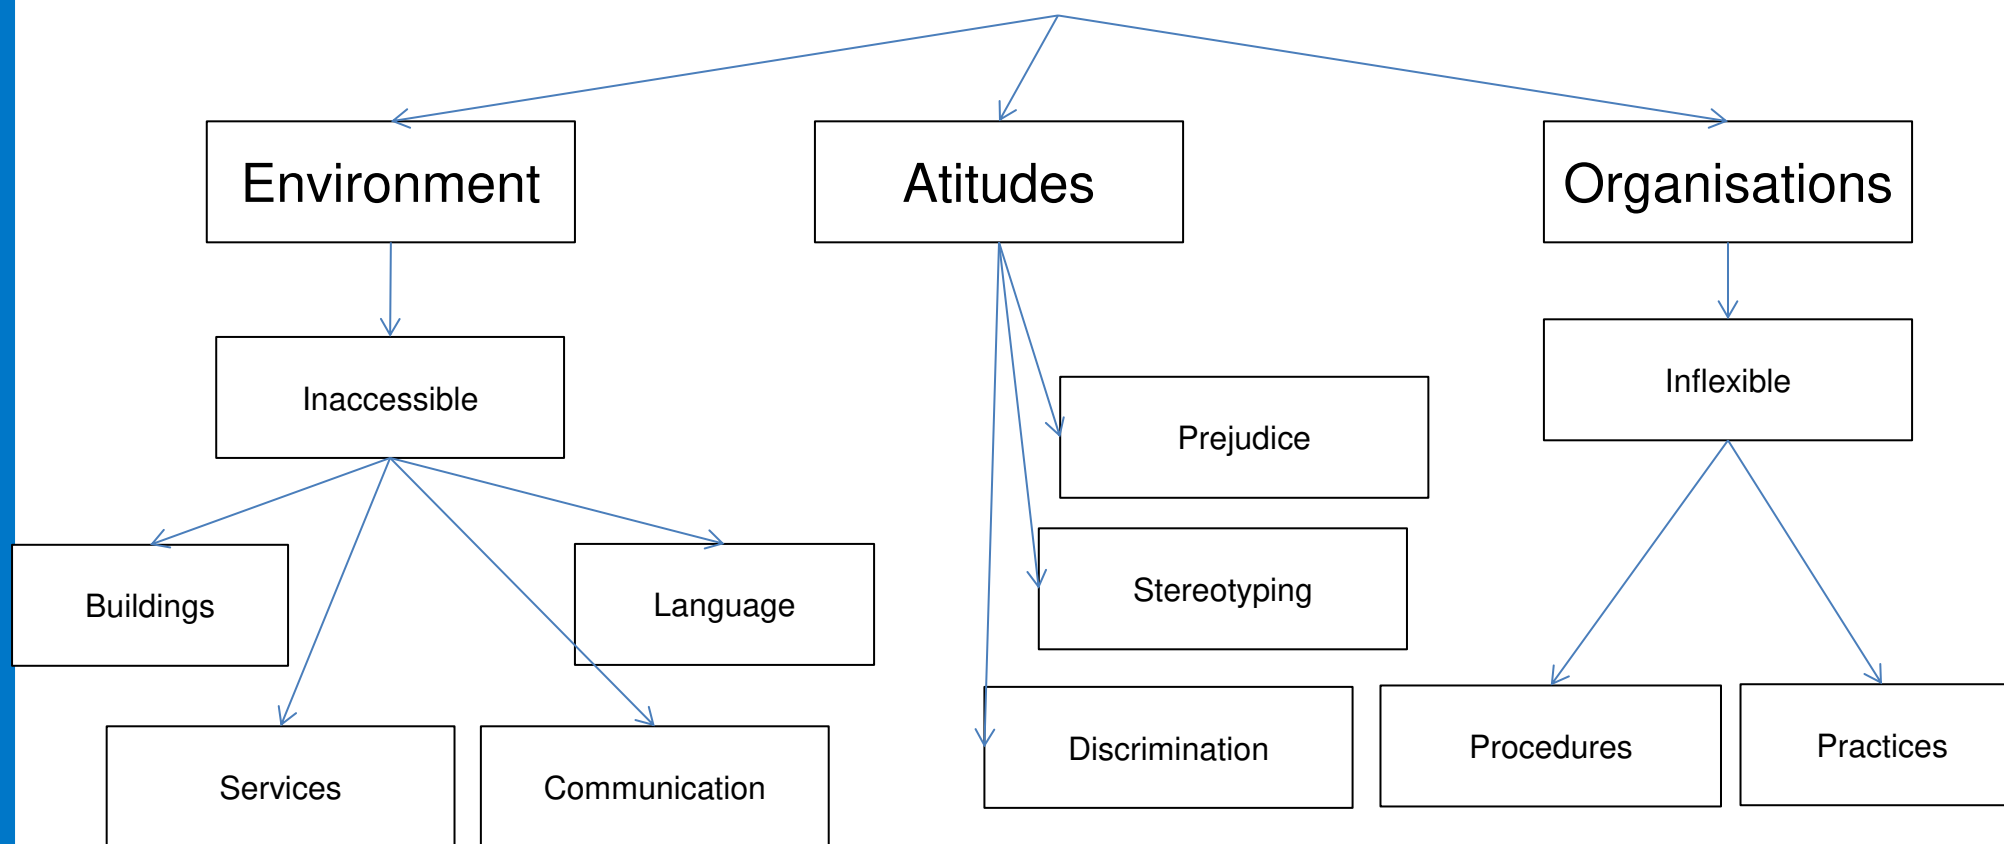

The sustainable development goals aim at ensuring healthy lives and promoting well-being for all at all ages including people with disabilities and specifically through the 3.7 goal for sexual and reproductive healthcare services.

CURRENT SITUATION

The social model of disability helps to better understanding of the problems faced by persons with disabilities not blaming them but instead acknowledging the responsibility of societies.

People with disabilities face **several barriers**

WASHINGTON GROUP ON DISABILITY STATISTICS

City Group authorised by the **UN Statistical Commission** and created following the UN International Seminar on Measurement of Disability in **2001**

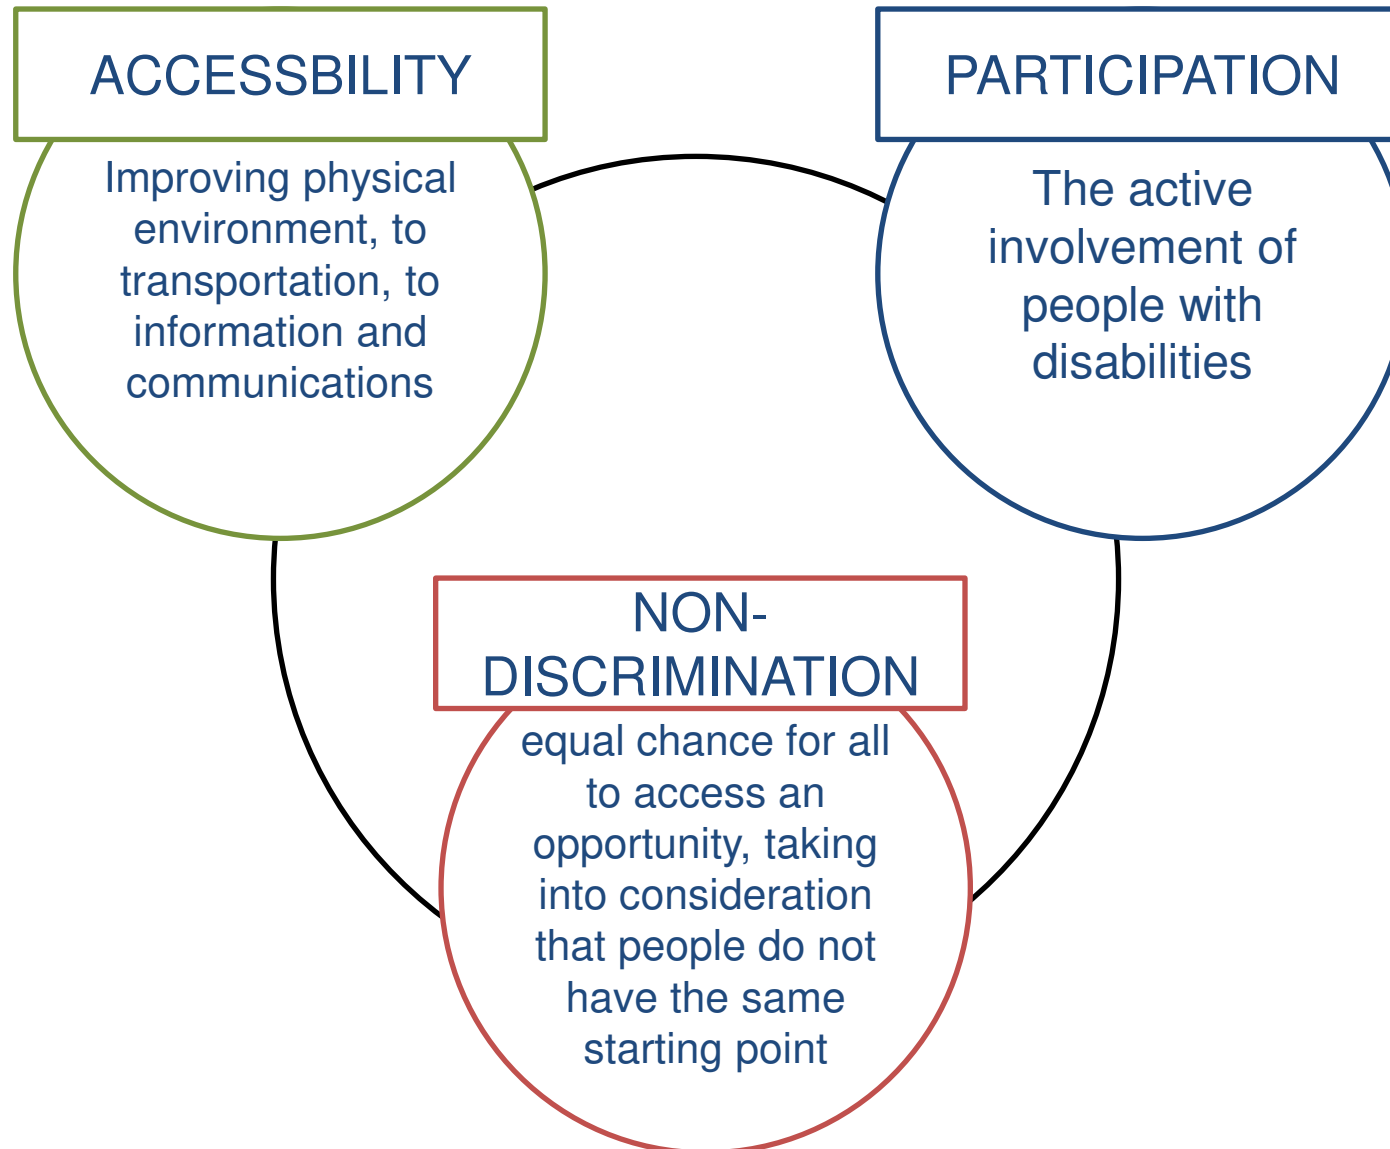

Develop and test **tools** to collect internationally **robust and quality** disability statistics to enable **comparability** of data across different contexts.

Used in censuses or surveys in over 78 countries.

Many tools have completed the Washington Group Questionnaire including the Short Set of Questions, the extended Set and the Child Functioning Module (UNICEF)

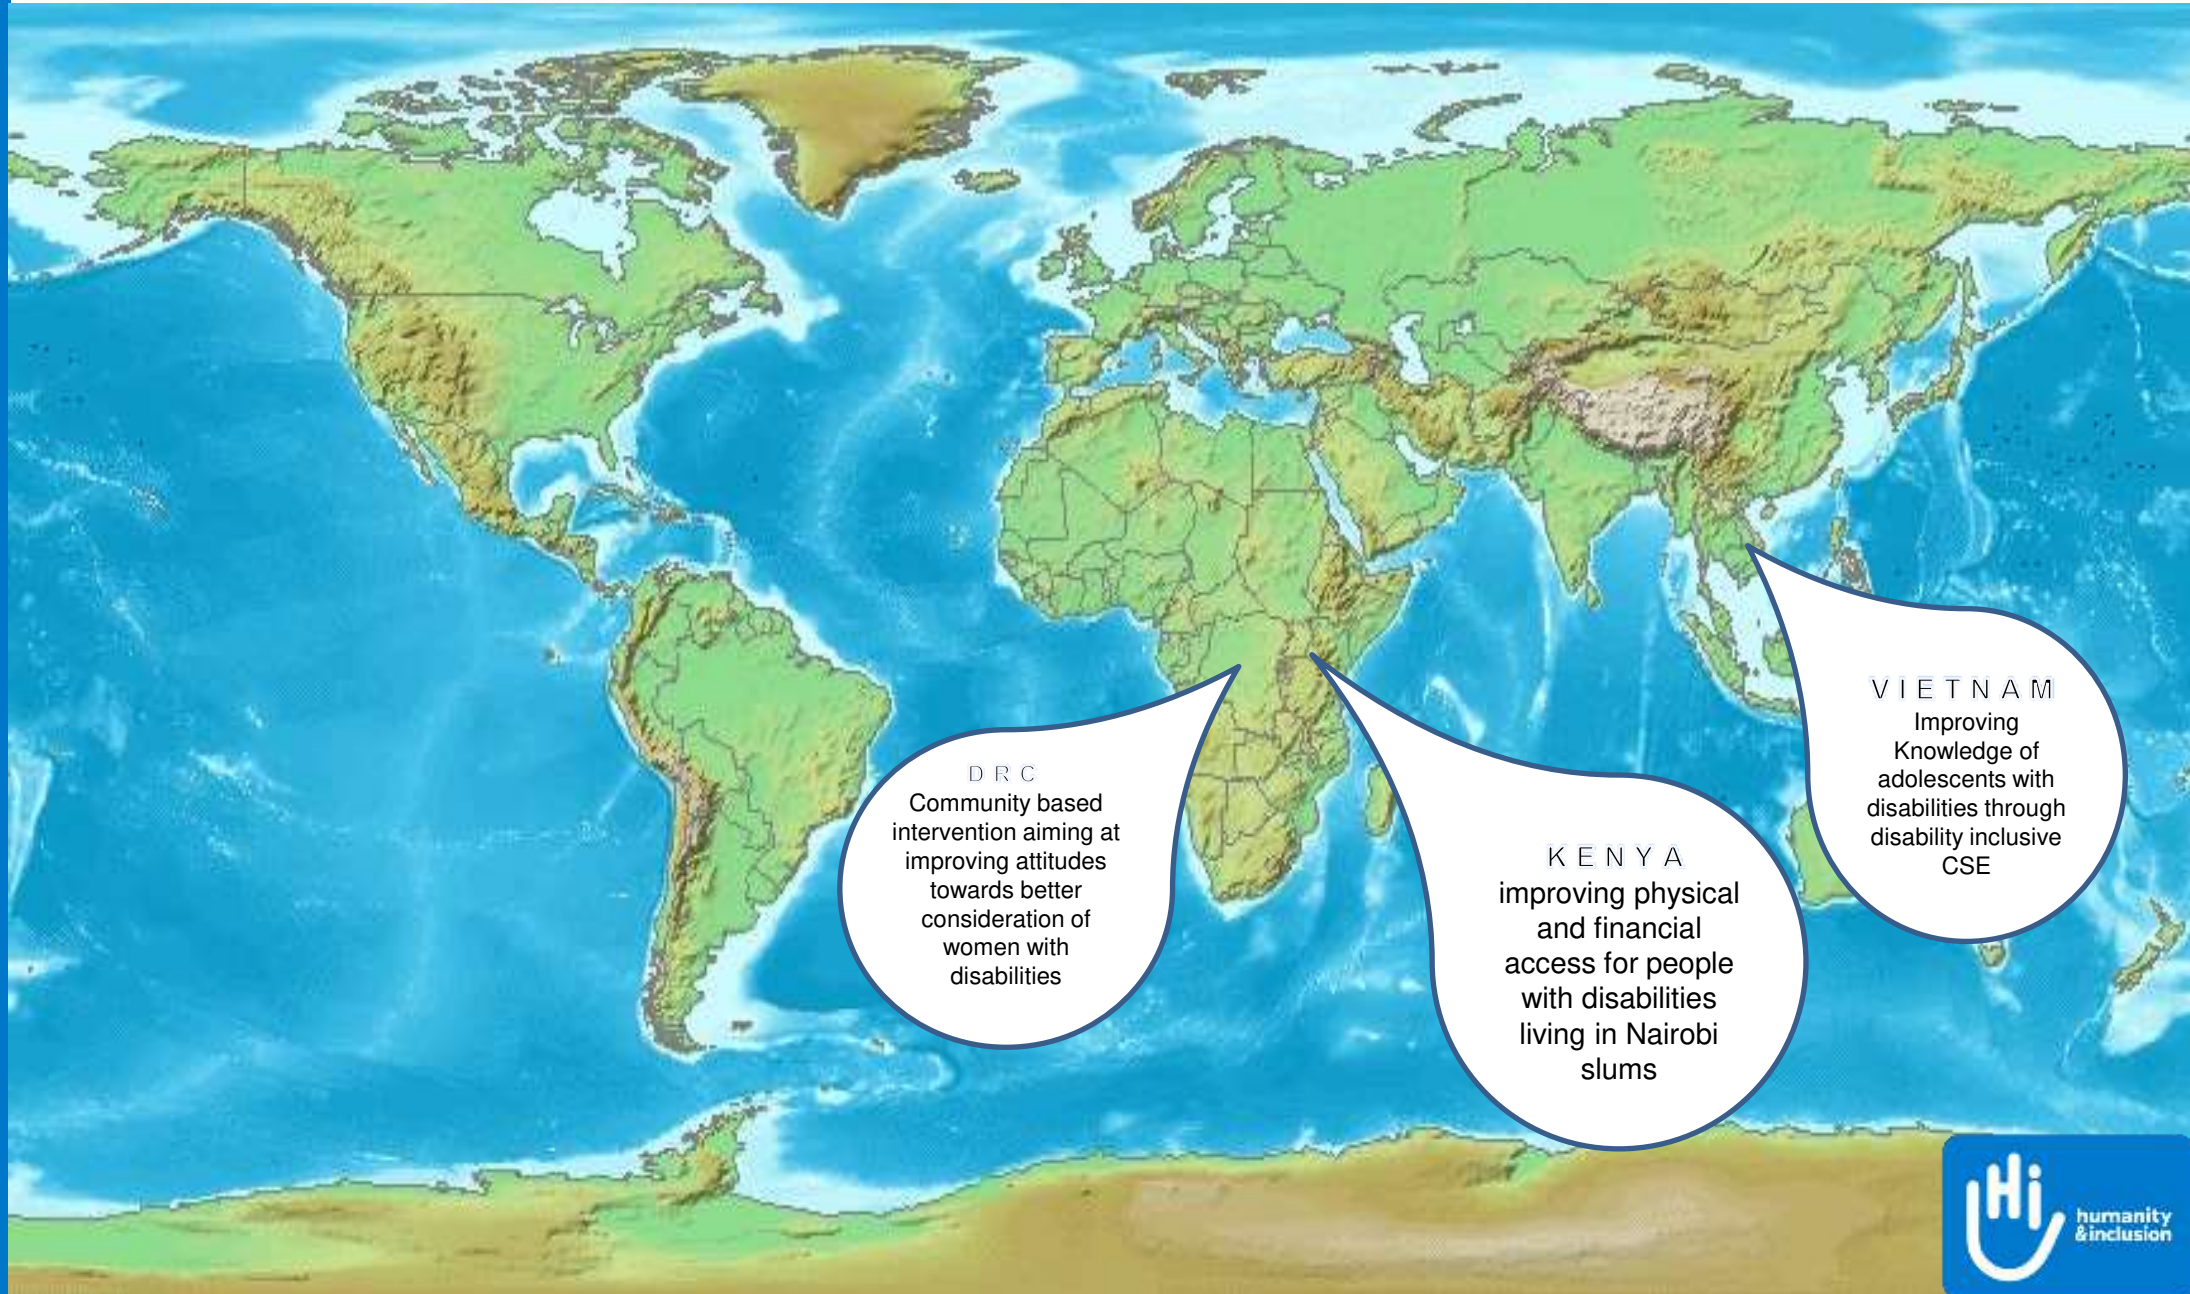

HUMANITY & INCLUSION'S MODEL FOR DISABILITY-INCLUSIVE DEVELOPMENT

DISABILITY INCLUSIVE SRH

EXAMPLES OF PROJECTS

D R C
Community based
intervention aiming at
improving attitudes
towards better
consideration of
women with
disabilities

K E N Y A
improving physical
and financial
access for people
with disabilities
living in Nairobi
slums

V I E T N A M
Improving
Knowledge of
adolescents with
disabilities through
disability inclusive
CSE

RECOMMENDATIONS

- 1. Disaggregate your data collection:** 78 countries have already included indicators from the Washington Group into their Health Information Systems. We might be providing services to people with disabilities or not but we cannot know if we don't integrate specific indicators
- 2. Partner with DPO** and Organizations specifically working with people with disabilities.
