Saving lives. Improving health.  
Transforming futures.

# *Community Health Impact for the Humanitarian-Development Nexus*

## Conference Objectives

1. Gain a **greater understanding of why a humanitarian-development approach is important** to achieving our vision of global and community health for all;
2. Contribute and gain **new ideas and actions** on how to advance evidence-based policies, strategies, partnerships, and practices in a complex and fluid area;
3. Create **new partnerships** for future collaborations to advance humanitarian-development approaches;
4. Increase an awareness of the relevant programmatic and research questions driving this work and **identify the remaining gaps in knowledge**.
