

Highlights

- Three (3) new cVDPV3 were reported this week from Somalia. One (1) case was isolated from Kismayo in South Zone, and two (2) cases came from Mahaday District in Central Zone

Objective 1: Build effective partnerships between agencies

The CGPP HOA Secretariat team participated in the following coordination and reviews meeting

1. weekly GPEI HOA coordination meeting in Gigiri in Nairobi.
2. ARCC meeting which was reviewing the Country reports.

Figure 1: Somalia Annual EPI/Polio Review workshop in Hargeisa, Somaliland

Objective 2: Strengthen routine immunization systems

Outreach Services

A total of 13 outreach sessions conducted in CGPP supported area of Lamu (Lamu East), Garissa (Dadaab, Fafi, Hulugho), Lower Juba (Afmadow, Badhadhe), Nairobi (Kamukunji), Gedo (Bardere, Gerilet, Belet Hawa, Elwak and Dollow), Turkana (Loima, Kibish, Turkana West). The CGPP partners in the ground supported 9 (69%) of the outreach sessions conducted.

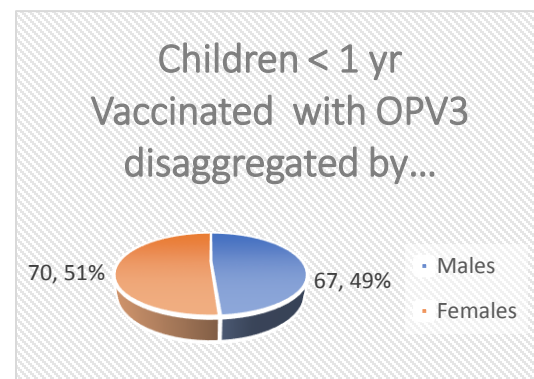

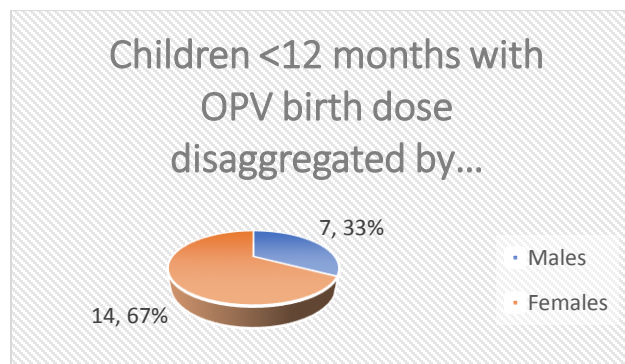

Fig. 2: Children < 12 months vaccinated with OPV birth dose

Fig.3: Children < 12 months Vaccinated with OPV 3

During the outreach sessions, a total of 248 children < 12 months vaccinated with various antigens. Twenty-one (8%) of the children aged < 12 months were out of the 248 were vaccinated with OPV 0 (birthdose) as shown in fig 2 above. One hundred and thirty-seven (30%) of the children out of the 248 were vaccinated with OPV3. The proportion of males vaccinated with OPV 3 were 67 (49%) while 70 (51%) were females as indicated in Fig. 3 above.

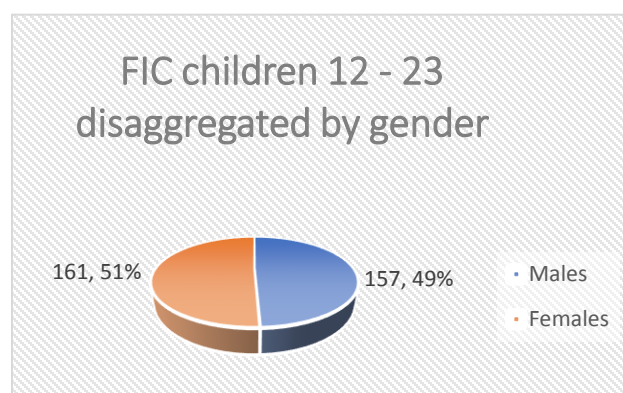

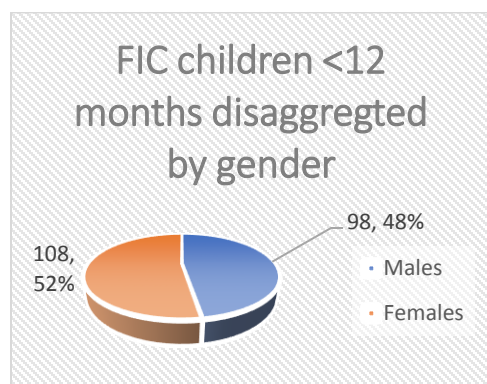

Fig. 3: Fully immunized children < 12 months

Fig.4: Fully immunized (FIC) children 12-23 months

According to Fig.4 above, 206 children < 12 months recorded as being fully immunized out of which 98 (48%) were females while 108 (52%) were males. The total number of children registered as FIC under the age category of 12-23 months were 318 out of which 161 (51%) were males and 157 (49%) being females as per Fig. 4 above.

Fifteen (15) children recorded as zero doses, 6 (40%) of the children were males while 9 (60%) were females and it is worth mentioning that the highest number of zero dose cases were reported from Lower Juba 7 (46%) out of the 15 reported.

Social Mobilization Indicators:

Table 1: Social mobilization activities conducted by Social Mobilizers.

County/Sub County	# Community Mobilizers engaged	# Family Covered	HH Visited	# < 5s reached	# one on one contacts	# group meetings held	# SM activities in border / Migrant
Garissa (dadaab,fafi hulugho)	9	3,390	678	318	460	64	18
Lamu (Lamu East)	6	1,004	432	200	140	12	6
Gedo (bardere_gerille belet_hawa elwak dollow)	14	5,304	884	1103	84	3	4

Nairobi (Kamukunji)	25	156	156	321	1091	5	1
Lower Juba (Afmadow & badhadhe)	9	3,850	720	463	720	54	46
Turkana (loima, Kibish Turkana West)	19	152	-	307	0	0	18
Total	82	13,856	2,870	2,712	2,495	138	93

Eighty-two (82) community mobilizers from the 6 CGPP supported areas participated in the social mobilization activities during the reporting week. A total of 2,870 Households visited, 13,856 families visited and 2,712 children <5 years reached routine immunization and surveillance messages. Also the CMs were able to conduct 138 group meetings, 12,495 one on one contact and 93 social mobilization meetings were carried out along the border and nomadic settlements.

Defaulter tracing

Community Mobilizers conducted defaulter tracing from 5 (83%) out of the 6 Counties/regions which reported in week 41 and managed to trace 215 children who had defaulted Immunization. The highest number of children 106 (49%) were traced in Garissa County during the reporting week while in Turkana and Kamukunji County did not conduct any defaulter tracing.

Cross-Border work

Table 2: Cross-border meetings and vaccination posts

County/Sub County	CBHC Meeting	Active CBHC	No. special vaccination Posts	Functional special vaccination posts	No. of vaccination border posts	No. of vaccination transit route posts
Garissa (dadaab, fafi hulugho)	Monthly	3	0	0	0	0
Lamu (Lamu East)	Monthly	10	2	0	0	0
Gedo (bardere_gerille belet_hawa, elwak dollow)	Monthly	4	9	4	9	7
Nairobi (Kamukunji)	Monthly	N/A	N/A	N/A	N/A	N/A
Lower Juba (afmadow & badhadhe)	Monthly	2	4	0	1	5
Turkana (loima, kibish, turkana_west)	Quarterly	1	1	0	1	7
Total		20	16	4	11	19

During the reporting week, 5 (83%) out of the 6 CGPP supported area reported having 20 active Community Based Health Committee (CBHC) who are meeting on a monthly basis apart from Turkana whose meeting are held on

quarterly basis. The number of special vaccination posts during the week was 16 while only, 4 were found to be active in are Gedo region and 19 vaccination transit route posts as indicated in Table 2 above.

The lower Juba team were able to form new linkages with the program with pregnant women and Nutrition services.

Objective 3: Support supplemental polio immunization activities

Planning and preparation for the second round of bOPV continued in Garissa, Lamu, Mandera, and Wajir Counties.

Objective 4: Support efforts to strengthen AFP surveillance

Active case search Visits using ODK Integrated Support Supervisory Checklist 2018

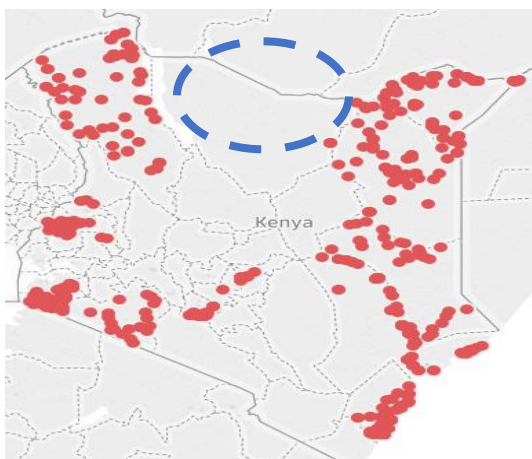

Fig.7: Past 1 Month, 01 - 30 Sept. 2018

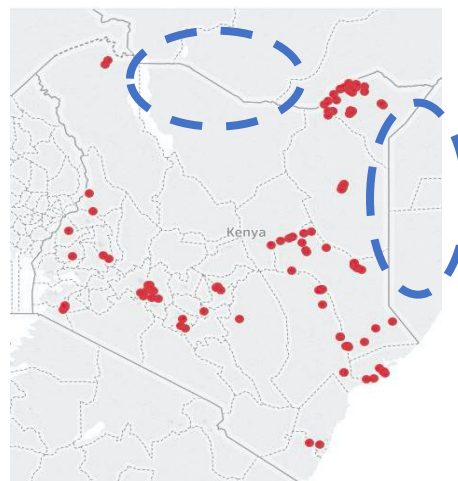

Fig.8: Past 1 week, 1st - 14th October 2018.

The area where supervision using ODK was not conducted

Integrated Support supervision (ISS) was carried out in 5 out of the 7 GCPP supported area of Turkana, Mandera, Wajir, Garissa and Lamu County using ODK in the first two weeks (01-14th) October 2018. A total of 77 facilities visited, and it is worth noting that no Integrated support supervision using took place in Marsabit County.

The digitized Integrated support supervision (ISS) tool to be used by the Somalia team has been finalized and deployed on the ONA platform.

Active Case Search

Table 4: Active case search conducted in CGPP supported area

County	# CMs engaged	# HH visited	# males reached	# Females reached	# AFP reported by CMs	Silent Area	# AFP cases reported by Nomadic	Capacity Building

Garissa (dadaab, fafi hulugho)	9	676	890	2,500	0	0	0	0
Lamu (Lamu East)	6	432	182	452	0	0	0	M=5 F=1
Gedo (Bardere gerile, Belet Hawa, Elwak dollow)	14	560	1,402	1,758	0	2	2	M=102 F=18
Lower Juba (Afmadow & Badhadhe)	9	720	960	2,800	0	0		0
Turkana (Ioima, Kibish, Turkana West)	-	-	-	-	-	16	0	-
Total	38	2,390	3,434	7,510	0	18	2	M=107 F=19

Thirty-eight (38) community mobilizers took part in active case search and managed to visit total of 2,390 households, 10,944 persons (Male 3,434 (31%) and Females 7,510 (69%) reached with Routine Immunization, and Surveillance messages and other area covered were tracking mobile population, global situation of polio, Pregnant mothers, referral AWD cases, referral Malnutrition cases. No case of suspected AFP found during the active case search. Capacity building on Routine Immunization and Surveillance where conducted in Lamu and Gedo targeting 126 persons (Males 107 (84%) and females 19 (16%).

Security

A grenade attack on a family meeting in Gedo. Fortunately, no casualty/fatality reported, and in Lower Juba, insurgents raided a police post in the Somalia border town of Diff

Planned activities week of 7th-14th October 2018.

1. Participate and support EPI outreach sessions.
2. Plan and support the Cross-Border committee meeting.
3. Training of CHVs
4. Planning meeting for joint cross-border meeting
5. SIA Social mobilization
6. Participate in Joint Supervisory visit by MOH
7. Dissemination of community mobilizer contracts
8. Active case search and defaulter tracing.
9. Community dialogue sessions on RI, AFP case detection
