

Key Highlights of the Week:

Somalia

- No cVDPV-2 or cVDPV-3 isolated from AFP cases and contacts in 2019
- A total of 33 AFP cases reported in 2019, with 8 cases reported this week. 21 cases were discarded and 12 are in process in the lab. There are no PV-2 or PV-3 isolated from either AFP cases or contacts in 2019
- A total of 12 ES samples were collected and sent to lab in 2019 from the 4 ES sites. 8 are negative, 3 have EV and 1 is aVDPV2 positive
- A new VDPV2 isolate (ES/SOM/BAN/HDN/EGH/19/003) has been confirmed from environmental samples collected from Egyptian Hospital. The date of collection of the sample was February 3, 2019

Kenya CVDPV2

- No new cases of cVDPVs, date of collection of the most recent positive sample is 21 March 2018 from the Kamukunji Environmental site 1, Nairobi.
- 80 AFP cases reported in 2019 from 35/47 counties, 77 cases during similar period in 2018. National non-polio AFP rate is at 2.84 and stool adequacy of 91%
- 71%(25) counties that have reported AFP cases in Yr 2019 had non-polio AFP rate of $\geq 2/100,000$, while 60%(21) had stool adequacy of $\geq 80\%$. 40%(14) counties have achieved target for both indicators.

Partnerships and coordination of Polio and GHS project activities

- CGPP conducted the Kenya-Uganda-South Sudan, and Ethiopia Cross-Border Health Coordination Meeting on Feb 18-21, 2019 at Lodwar, Turkana County. The meeting brought together 73 participants from MOH/Veterinary officials, WHO, UNICEF, NGOs from Ateker region (Turkana & Marsabit Counties from Kenya, Kapoeta County from South Sudan, Moroto district from Uganda and South Omo zone in Ethiopia).
- The CGPP Kenya, Somalia, Ethiopia, and South Sudan participated in the WHO Data Management and GIS Workshop for the HoA Countries held in Nairobi.

| Total | 76 | 77 | 2567 | 1 | 1 | 0 | 5132 | 3425 | 28 | 145 |

Integrated support supervision (ISS)

Log Call of Normadic

Twenty-two (22) facilities were visited by the joint support surveillance team . Nine (41%) of the facilities were High, Four (18%) were a medium risk while 9 (41%) was prioritized as low risk. All the facilities visited had a list of community informants and only three facilities visited had to log of calls from the nomadic focal person.

Insecurity reported during the week:

- No security incidents reported during the week.

Challenges

- Security restrictions fear from Insurgency,
- Cellphone Network remains a major challenge in Hulugho (Garissa County).

Planned activities (24 Feb – 03 March 2019)

CGPP-HoA Secretariat

- Support the CGPP external evaluation exercise.
- Participate in the MoH Polio SIAs planning.
- Conduct CGPP Kenya and Somalia BCC training in Nairobi.
- Participate and present at the GPEI HOA partners and Tripartite meeting.

CGPP-HoA Partners Project field teams

- Routine Social mobilization (VPD (AFP,Measles & NNT) & EPI)
- Conduct/Support EPI outreaches in hard to reach areas.
- Defaulter tracing
- Conduct active case search
- On the job training for Cms and CHVs
- Support Community dialogue sessions
- Monthly cross-border health committee meeting in Lamu
