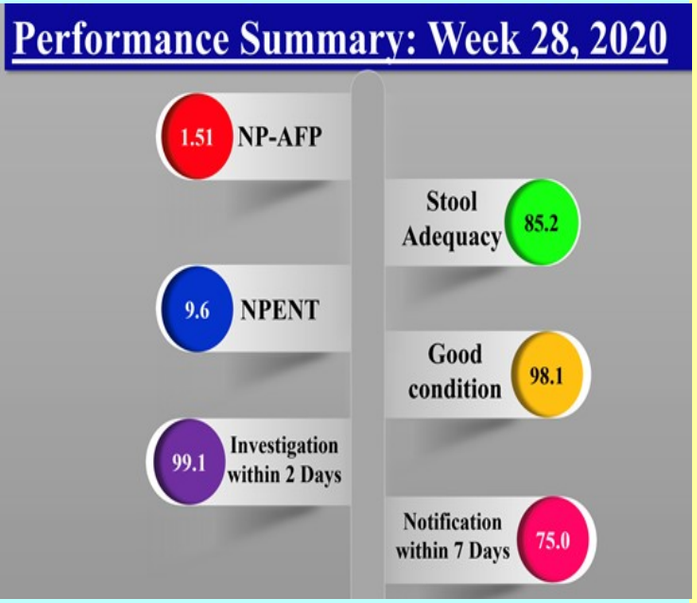
CGP-GHS , Kenya Somalia as of Q4—Week 3
Project Implementation (03/07/2020– 20/07/2020)

POLIO UPDATES

KENYA

- National Non-polio AFP rate and stool adequacy for 2020 are 1.51 and 85% respectively. The Non-polio Enterovirus (NPENT) isolation rate is 9.6%
- One hundred and fifty-six (156) suspected AFP cases have been reported in 2020 from 40 (85%) counties.



Source: WHO Kenya week 28 2020.

SOMALIA

- A total of 202 AFP cases (92 Females & 110Males) have been reported in 2020. Of these 176 (87%) have lab result and 26 (15%) cases are in the lab for processing. Of the cases with lab results, five cases had SL isolation, one cases positive for cVDPV1 and 1670cases were negative.
- Of the 350 stool samples from 175 cases with lab results in 2020, 59 (17%) samples have EV isolation.
- A total of 44 ES samples were collected and sent to the lab in 2020. Twenty (20) samples are negative, Two (2) SL, four (4) NPEV and Eleven (11) cVDPV2. Four (4) ES samples are in the lab for processing.

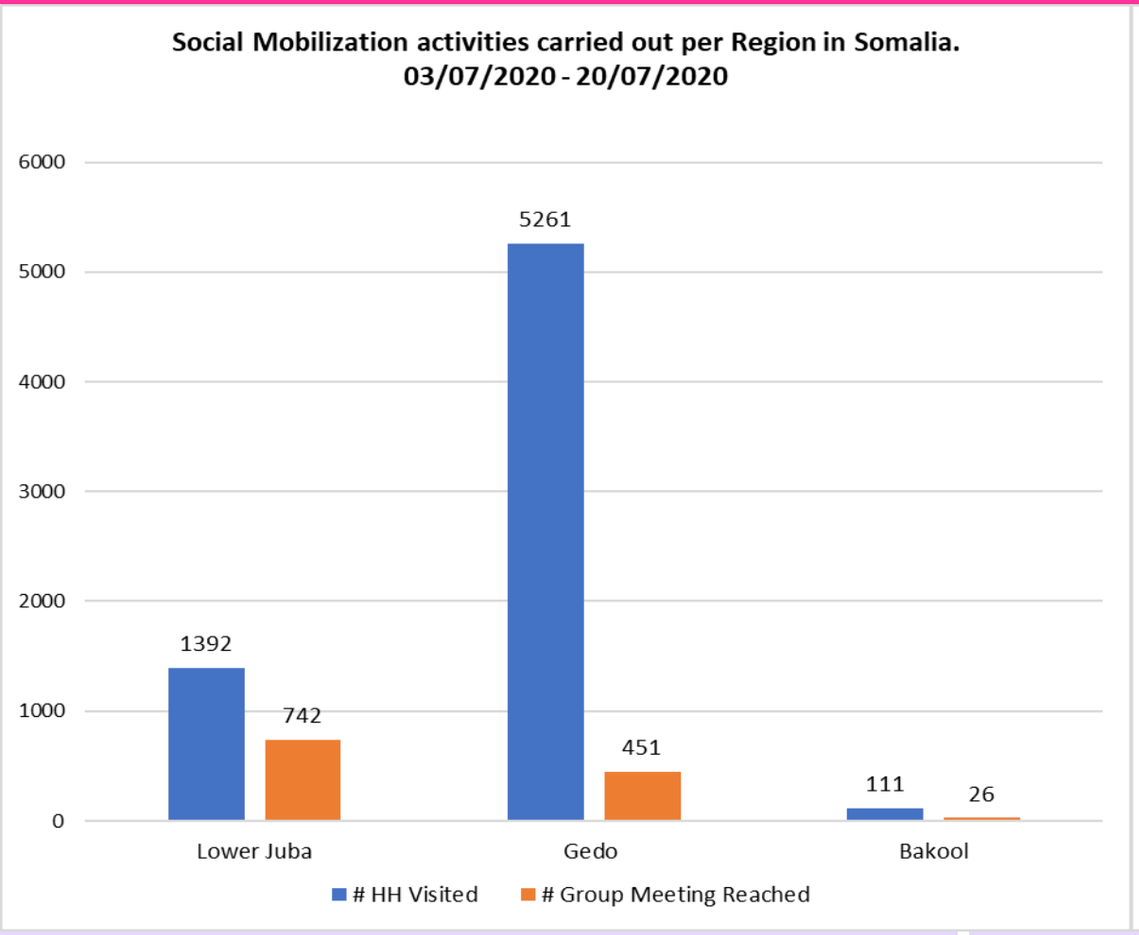
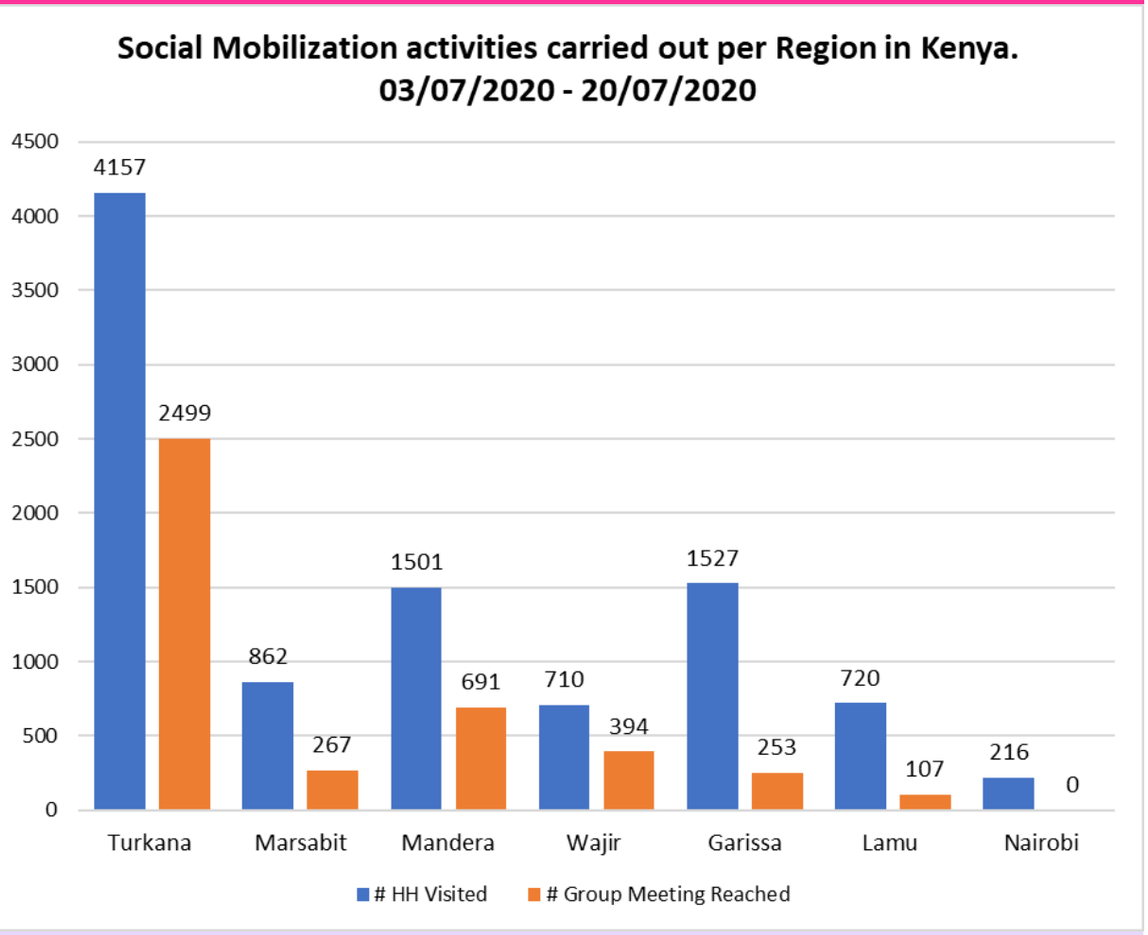
Total # of children traced= 413 (65%)

Social Mobilization Activities





Summary- Social Mobilization Activities

SOMALIA:

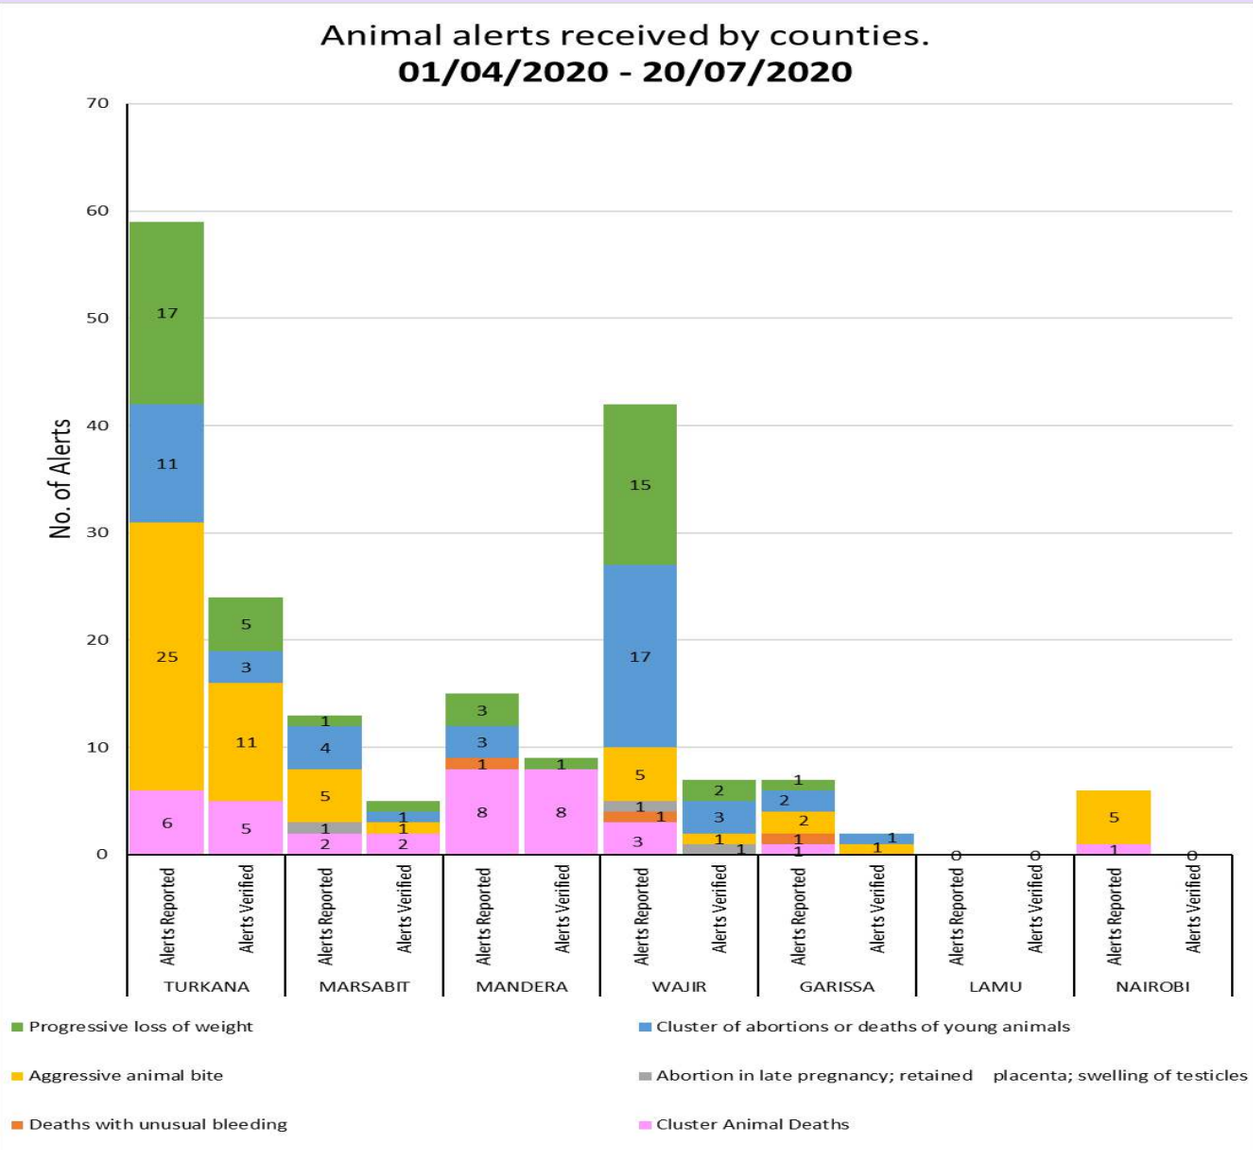
- # of times HH visited in Somalia = 6,764
- # of persons reached through group meetings = 1,219

KENYA:

- # of times HH visited in Somalia = 9,693
- # of persons reached through group meetings = 4,211

- Social mobilizations is to sensitize communities on the importance of personal hygiene, regular handwashing, physical distancing and wearing of masks (especially in this period of COVID-19) in disease prevention at community level. Also community mobilizers & Community Disease Reporters (CMs/CDRs) are looking for suspected AFP & Zoonotic cases using simplified lay case definitions to identify suspected AFP cases and other disease conditions (e.g. measles, Acute Watery Diarrohea—AWDs). This is done through one to one meeting at household level or group meeting organized at the community level. The community mobilizers are required to generate reports to the project supervisors and also CHAs or border health facility in-charges.
- The CMs engage in community mobilization for RI services especially during outreach clinic sessions and in RI defaulter tracing.

Community Based Disease Surveillance on Priority Zoonotic Diseases.



Rumour Alerts Reported by the Community Volunteers:

- *The virus is for rich people.*
- *Corona virus is a disease for adults only.*
- *Those who are HIV positive , if tested for corona virus it detects positive.*

SUPPORT SUPERVISION (13/07/2020 - 20/7/2020)

Sub County	Type of supervision	Date (Period)	Key findings	Key Recommendations	Districts	
					# District	# Facilities
Marsabit (Moyale)	Integrated (MoH , Vets & CGPP IP)	20/07/2020	- Most facility in charges have not been trained on EPI. - Surveillance posters were displayed in all of the dispensaries. - Most of the health facilities had their immunization monitoring charts updated. - Most fridges temperatures were within range 2 to 8 degrees - Most ledger books were not updated	- To always update their vaccine ledger books because with that they can keep track of their balances	1	8
Turkana (Turkana West)	Integrated (MoH , Vets & CGPP IP)	20/07/2020	- Availability of isolation centres, screening point and 3 quarantine facilities - All facilities border facilities had Surveillance structures and were offering Immunization services except new facility in border	- To strengthen surveillance of COVID 19 and other notifiable diseases focusing on AFP in the sub county. - Ensure routine service are continuing at the midst of COVID 19	1	6

OTHER DISEASE OUTBREAK SITUATION

Kenya

COVID-19 OUTBREAK

A total of **13,353 confirmed** cases with **234 deaths** (**CFR 1.8%**) since March 2020 with **5,122** case recoveries and majority of cases are local transmission **(93%).**

Male cases: **8,929**
Female cases: **4,424**
A total of 238,920 covid-19 tests have been conducted.

KEY ACTIVITIES OF THE WEEK

- GHSA Team check-in meeting,. Agenda: Updates on how CBS is going, Updates on the status of Priority Zoonotic Disease risk communication materials Discussion on FY21 work planning.
- USAID Mission & Secretariat GHSA monthly meeting. The meeting reviewed the GHSA quarterly calendar of activities, implementation progress, challenges and lessons learned. Progress on Integration of COVID-19 was also discussed.
- Communities in Marsabit County were provided with information and awareness creation on Rift Valley Fever, AFP (Acute Flaccid Paralysis), COVID-19, and Routine Immunization awareness during 2 different community dialogue sessions.
- Community dialogue also held in Nairobi County to identify the challenges faced for immunization during the COVID-19 pandemic on 16th July with 19 people reached.
- Joint support supervision is ongoing with the presence of Ministry of Health counterparts, Department of Veterinary Services as well as IPs in both Marsabit and Turkana.
- Participate in covid-19 screening and sensitization of the communities on sign and symptoms as well as preventive measures in the project areas.
- Active case search (AFP, other Priority conditions & Zoonotic Priority disease).
- Community Mobilizers/Community Health Volunteers active participation in tracing children who have defaulted in Immunization in the project areas.

CHALLENGES

- Poor network connectivity in some parts of the project areas affecting smooth communication.
- Kenya Somali border closure by the Government of Kenya affecting movement of people
- Government lockdown in CGPP counties (Nairobi and Mandera).
- Inter clan clashes in Marsabit county affecting planned activities.
- Disruption of planned activities as a result of the Covid-19 pandemic e.g. Care Group Model.
