- A total of 412 zero reports and 1 case of rumours were reported by the community health volunteers.
KENYA:
Total # of children Defaulted = 1,378
Total # of children traced = 912 (66%)

SOMALIA:
Total # of children Defaulted = 18
Total # of children traced = 12 (67%)
2 new suspected AFP case detected by community mobilizer in Wajir and Mandera county, Kenya and 1 new suspected cases from Somalia reported during the week.
CROSS-BORDER SURVEILLANCE AT DHOBLEY CROSSING POINT IN SOMALIA

• CUMULATIVE: A total of 128 children < 15 yrs managed to cross the Dhobley border point with IFO camp recording the highest number as the final destination with 39, Dagahley camp 23, Garissa town 23, Hagadera camp 19, Wajir 14 and Nairobi 10.

• Out of the 128, 10 received OPV doses, 4 received IPV doses and MR received 11 doses, were administered to children <5 crossing the border.

• Majority of the children were from age 0-4 yrs with 70 children, 5-9 yrs were 50 children and 10-14 yrs were 7 children.

• In terms of gender, out of the 128 children, 70 were female (55%) while 58 were male (45%).

• Most of the children are travelling from: Afmadow 23, Kismayo 21, Buale 13, Dhobley 11, Mogadishu 10 and others 52.
COMMUNITY BASED DISEASE SURVEILLANCE ON PRIORITY ZOONOTIC DISEASES.

Rumor report – this are hearsay information on diseases or disease intelligence reports collected by the community mobilizers.

Example: “People doubt covid19 vaccine because the research was done in a short period of time, asking why they haven't developed other vaccines like malaria vaccine yet.” Kamukunji Nairobi

Zero reports - are reports showing the community volunteers are doing active case search but no alerts picked during active case search.
SOCIAL MOBILIZATION ACTIVITIES

• 1,647 HHs visited by the social mobilizers during the week for sensitization of community members on hygiene, routine immunization, nutrition, priority zoonotic diseases and COVID-19 including vaccinations during the week.

• Social mobilizers also managed to visits a total of 887 under five years children during the week (Kenya—774 and Somalia—113), to check their routine immunization status, defaulters and schedules.

• 19 group meeting were conducted during the week (Kenya - 15 and Somalia - 5) reaching a total of 1,546 community members with 75% females (1,160) and 25% males (386).

• 68 influential people were sensitized through community dialogue and sensitizations meeting.

• 10 religious leaders, 22 traditional healers, 22 village elders, 6 women group leaders and 5 chief/sub-chiefs were reached by CMs amplifying the messages of routine immunization, vaccine preventable diseases and priority zoonotic diseases.

• 3 school heads and madrasa leader took part in the dialogue sessions and were also encouraged to amplify health messages especially routine immunization.

CHALLENGES

- Due to the biting drought experienced in the project areas, there's massive death of livestock, high livestock movements, high defaulter rates since the nomads migrated to Somalia in search of pasture and water.
- Closed health facilities due to lack of funding (Tula Amin, Malkariye, Mercy-USA and Gerrille MCH)
- Competing priority e.g., Covid-19 related activities
- High influx of displaced person both Dollow and Luuq District due to severe drought.
- Poor internet connectivity in Badhaadhe district, Gedo, Somalia that is affecting reporting.
