

Group 3

Discussion report

Strategy of harmonizing CSO work

- Utilize the existing structures to coordinate the CSO's work. eg
- *Work through the district malaria focal point person.*
- *Compile all the CSO'S and their work on malaria in the district.*
- *Come up with a profile of organizations, to address who does what? When? Where? and at what level?*
- *The information can then be forwarded through the same structure to the national level.*

Alignment with MOH

- *Sensitization of CSO'S On the importance of aligning plans with NMCP*
- *Audit CSO objectives to reconcile them with general malaria objectives of MOH.*
- *Streamline reporting to the district MFP*
- *Conduct M&E and submit indicators to the district structure*

Best indicators for CSO

- Community education
- Level of awareness
- Support monitoring
- Number of ITNs distributed
- Number of IEC materials produced and distributed etc
